Subject: Red Hook Ballfields, Brooklyn

Lou,
The City, DEC, and EPA are negotiating an Order on Consent for a CERCLA removal action for the Red Hook Park ballfields in Brooklyn. The action relates to historic lead contamination traced to former smelter operations. We understand that DEC will be requiring some long-term controls over the site, such as a site management plan, and we wanted to discuss the possible legal mechanism for those controls. We would like to set up a call with you and EPA to talk through some of the possibilities. Please let me know your availability for a call next week with the City and EPA. Thanks.
Haley Stein
